MAGNETIZER®

MOTORCYCLE FUEL ENERGIZER

- INCREASED HORSE POWER
- INCREASED FUEL ECONOMY
- REDUCED EMISSIONS

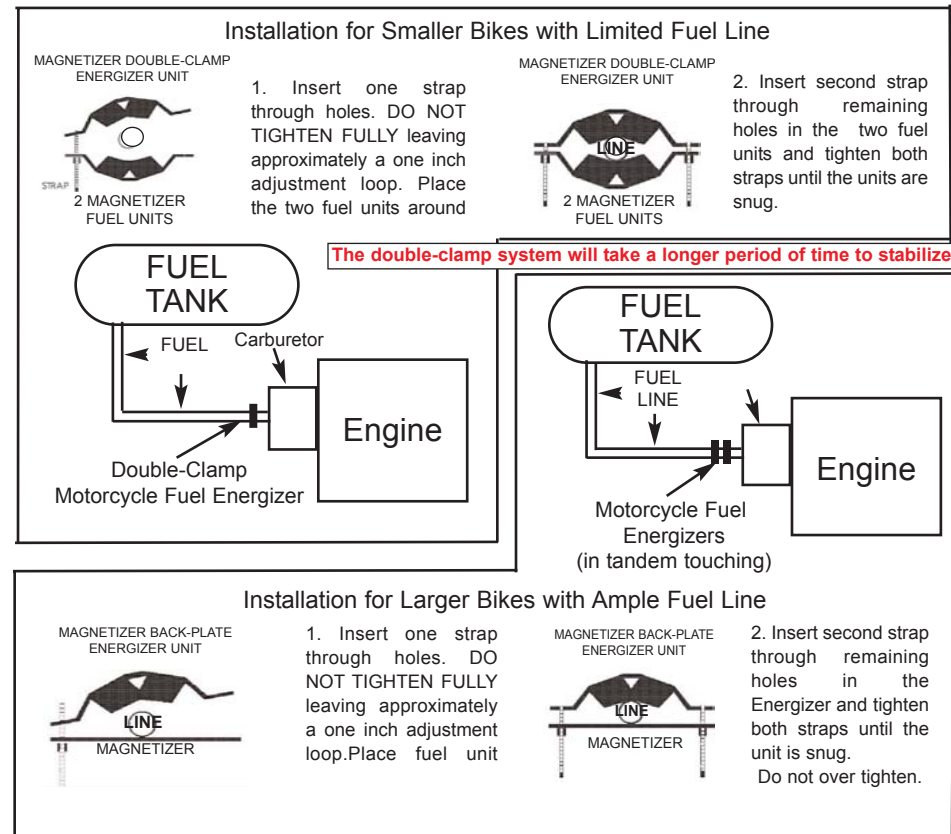

Feeling Under-Powered?

Unleash Your Engine's Horsepower!

MOTORCYCLE FUEL

Congratulations on your purchase of the Magnetizer® Motorcycle Fuel Energizer (MFE), and welcome to the world of magnetic free energy. This unique product is a technological break-through, resulting from over two decades of research and development. Using the MFE System will save you money at the pump with increased mpg/kpl and on the road by

Energizer System Installation

MAGNETIZER DOUBLE-CLAMP ENERGIZER UNIT

2 MAGNETIZER FUEL UNITS

MAGNETIZER DOUBLE-CLAMP ENERGIZER UNIT

2 MAGNETIZER FUEL UNITS

Installation for Smaller Bikes with Limited Fuel Line

1. Insert one strap through holes. DO NOT TIGHTEN FULLY leaving approximately a one inch adjustment loop. Place the two fuel units around
2. Insert second strap through remaining holes in the two fuel units and tighten both straps until the units are snug.

The double-clamp system will take a longer period of time to stabilize
